

**1st time
in Sri Lanka**

 **Sheffield
Hallam University**

BSc | **QUANTITY** **(Hons) in** | **SURVEYING**

PROGRAMME STRUCTURE

You gain a sound knowledge of the principles, techniques and applications needed by chartered quantity surveyors in today's complex and fast-moving profession.

You develop an active and flexible approach to managing the building process. This includes extensive use of information technology in our computer suites and learning centre. You use specialist software for managing human and physical resources, assessing critical paths and monitoring project costs.

You gain the measurement, financial, contractual and managerial knowledge and skills essential for a career in quantity surveying.
